Les Nubians

In the time since their 1999 U.S. debut Princesses Nubiennes (Higher Octave/Virgin) became the most successful French-language album in more than a decade of Billboard charts, Les Nubians' singing sisters have traveled the world, soaking up the sounds of reggae, afro-beat, pop and electronica while collaborating with a host of respected musicians. "Music is every moment of our lives," says Helene Faussart, one half of the Afropean hip hop/R&B duo Les Nubians. Helene and her sister/bandmate, Celia, found that this feeling connected them with people in Jamaica, Egypt, Cameroon, Chad, London, their native Paris and other locales around the world as they embarked on the journey that led to their newest album One Step Forward.
